* Please fill in all information in block letters of the English language

* A feature of trading on the NASDAQ is the implementation of transactions through professionals people who follow the bidding procedure and do not give rise to sharp fluctuations in quotes. Their number is approximately equal to 1300. Bidding is in the format of the auction: the buyer announces the purchase price, the seller is the cost of selling the asset.

* I agree to the processing of personal data and to receive newsletters _____ signature
